## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-8, and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by JP2002-141403.

JP2002-141403 discloses a ceramic block comprising a first insulated sheet and a second insulating sheet (2), a sheet electrode (3), a drawn out conductor (6), a thin film (16), drawn out conductor is tubular and cylindrical (Figure 2) and is connected to the sheet electrode (Figure 2) and is perpendicular to the sheet electrode, second ceramic insulating sheet has a through hole which drawn out conductor passes and drawn out conductor is attached to an inner wall of the through hole, and the inner edge of the sheet electrode is formed along the opening of the through hole (Figures and abstract).

### ***Allowable Subject Matter***

3. Claims 11-20 are allowed.

4. Claim 9 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
